

3,750-MILE SERVICE

Hyundai Factory Recommended Service*

- Replace engine oil
- Install Genuine Hyundai oil filter

Here is why we do it:

The 3,750-scheduled maintenance interval is designed to get the optimum ownership value from your Hyundai vehicle while helping to maximize its performance, safety and reliability. How much maintenance your Hyundai requires depends on how you drive, as well as the conditions in which you drive. Based on our experience, factory recommendations and our local driving conditions, we believe that performing this service at this mileage interval will keep your Hyundai at its best.

** Recommended under severe driving conditions.
Refer to Owner's Manual for details.*

15,000-MILE SERVICE

Hyundai Factory Recommended Service

- Change engine oil
- Install Genuine Hyundai oil filter
- Inspect automatic transaxle fluid
- Inspect automatic transaxle fluid filter (Sonata, Santa Fe and XG350)
- Inspect brake hoses and lines
- Inspect brake pads, calipers and rotors
- Inspect exhaust pipe and muffler
- Inspect suspension mounting bolts
- Inspect steering gearbox, linkage and boots/lower arm ball joint
- Inspect upper arm ball joint (Sonata and XG350)
- Inspect driveshafts and boots
- Inspect air conditioning refrigerant

Here is why we do it:

Keeping your Hyundai in peak operating condition will now require more than an oil change. At the 15,000-mile service, we incorporate a variety of visual inspections that are concerned with performance and safety. These inspections are performed by a certified Hyundai technician who has the training and expertise to identify potential problems before they occur.

30,000-MILE SERVICE

Hyundai Factory Recommended Service

- Change engine oil
- Install Genuine Hyundai oil filter
- Inspect fuel lines, fuel hoses and connections
- Inspect insulator of fuel injector (2.0 SULEV Elantra. Note: If removing injector, insulator and O-ring should be changed)
- Inspect vapor hose and fuel filler cap
- Replace air cleaner filter
- Inspect drive belt
- Replace engine coolant
- Inspect timing belt
- Inspect manual transaxle oil
- Inspect automatic transaxle fluid
- Inspect brake fluid
- Inspect brake hoses and lines
- Inspect rear brake drums, linings and parking brake
- Inspect brake pads, calipers and rotors
- Inspect exhaust pipe and muffler
- Inspect suspension mounting bolts
- Inspect steering gearbox, linkage and boots/lower arm ball joint
- Inspect upper arm ball joint (Sonata and XG350)
- Inspect power steering pump and hoses
- Inspect power steering belt (Elantra and Tiburon)
- Inspect driveshafts and boots
- Inspect air conditioning refrigerant

Here is why we do it:

Your Hyundai is now due for its first major service. All of the basic services have been performed. Now, our technicians use specialized equipment to more closely inspect your vehicle and make certain that all the mechanical, electronic and computer devices are working properly. At this time, we also address your vehicle's heating and cooling system. Over time, your vehicle's engine coolant can become contaminated, losing its ability to protect your engine during extreme fluctuations in temperature. The coolant also will lose its ability to protect the metal components in your vehicle's engine from rust and corrosion, causing premature engine and gasket failure. Expensive repairs could result from the lack of this required maintenance.
